NOTES

- 1) All utilities shall be underground.
- 2) A 10' public utility easement is centered on all interior and adjacent to all exterior lot lines.
- 3) Individual lot owners are responsible for control of noxious weeds as per state regulations. Mowing and manual removal are recommended.
- 4) The purchaser or owner of this lot or parcel understands and agrees that private road construction, maintenance and snow removal shall be the obligation of the owner, his successors in interest, or the homeowners' association, and that Blaine County is in no way obligated to accept, maintain or improve these roads until the roads are brought up to county standards, dedicated, and accepted by the county, and that each owner shall notify in writing any successor in interest of these facts.
- 5) All fire protection requirements of the Wood River Rural Fire District, the Uniform Fire Code and the Blaine County Fire Protection Ordinance including but not limited to water supply, access and clear zones shall be complied with prior to any combustible construction in this subdivision.
- 6) All construction on Lots 4-16 shall take place within the designated building envelope.
- 7) No habitable construction shall be allowed in the red (high) or blue (low) avoidance zone. If construction is proposed near these zones, a site specific study shall be necessary to assure that these areas are avoided. The avoidance danger area designated on this plot is considered by the owner, Blaine County, and Calena Engineering, Inc. as responsible for regulatory purposes. However, neither the owner, Blaine County, nor Calena Engineering, Inc. represents, guarantees, warrants, or implies the areas nearby the designated avoidance danger area are safe and free from avoidance or avoidance danger.
- 8) Native vegetation shall be maintained above the 25% slope line and to the greatest extent possible below that slope line with the yardscope irrigated by a domestic well being limited on each lot to a maximum of 1/2 acre.
- 9) All new domestic wells in this subdivision shall be metered.
- 10) In the event of further subdivision, no new lot shall be approved unless that lot has a building site or envelope outside of a red or blue avoidance area.
- 11) If Lots 1-3 are further subdivided, the county shall consider the cumulative impact of such a subdivision including but not limited to the impact on Gannett Road, the additional fire protection requirements, the private nature of Griffe Ranch Road and the public parking requirements for those accessing adjacent public land.
- 12) All lot owners, and subsequent purchasers as appropriate, agree to participate proportionately with other owners in future local improvement districts that may be formed to upgrade off-site public facilities such as Ploeba-Gannett Road.
- 13) The lot owners, and subsequent purchasers as appropriate, agree to maintain the fire protection system, provide year round access to the hydrants and protect the system from freezing.
- 14) No lot owner, or subsequent purchaser, shall erect any sign or physical impediment that would restrict or inhibit public access easements designated on this plot.
- 15) All surface drainage shall be accommodated by maintaining natural drainage channels where possible or by providing alternate drainage channels to handle surface run-off.
- 16) As an open range state, it is the responsibility of private landowners in Idaho to fence and livestock authorized to graze on open range such as public land.
- 17) For the purpose of wildlife migration, the height of fences within this subdivision shall not exceed 42" and the bottom rail shall exceed 18" a) in all areas above the 25% slope line and b) on 25% of the fencing done on the northern and southern property lines of Lots 1-3 and 12 and 16.
- 18) This property is subject to the Covenants, Conditions, and Restrictions of Griffe Ranch Subdivision, Instrument # _____ records of Blaine County, Idaho. Those C, C & R's set out the agricultural water rights apportioned to each lot. In the event of a conflict, county ordinances shall govern over those C, C & R's.
- 19) This property includes and is adjacent to active agricultural uses. Residents and purchasers should be aware that agricultural practices and operation including livestock grazing occurring dry and night are allowed and may result in dust, odors, use and application of agricultural chemicals, spraying, ground preparation, harvesting, etc. In addition, the roads accessing this property are used by agricultural vehicles. Such practices and uses are normal functions of agricultural lands and are not considered nuisances.
- 20) A 20 foot wide motorized BLM administrative access and non-motorized public access easement from Gannett Road to the BLM land is hereby granted within Griffe Ranch Road and Lookout Mountain Road north of the intersection, and then north onto BLM lands.
- 21) The owners of Lots 10, 11, 12 and 16 shall be allowed to relocate the irrigation ditch and/or pond and easements on their Lot with prior approval of the Homeowners Association.
